

**COLLEGE OF NURSING
FACULTY CURRICULUM VITA**

A. PERSONAL DATA

1. NAME: Swann Arp Adams **RANK:** Associate Professor

DATE OF APPOINTMENT AT USC: 8/2009 **TENURED:** Yes

2. DEPARTMENT: Nursing/ Epidemiology

3. EDUCATIONAL HISTORY:

a. Formal (Chronological listing)

<u>College/University</u>	<u>Major</u>	<u>Dates</u>	<u>Degree</u>
University of South Carolina Arnold School of Public Health Columbia, Sc	Epidemiology	2003	PhD
University of Tennessee School of Biomedical Sciences Knoxville, TN	Biomedical Sciences	1996	MS
Furman University Greenville, SC	Biology	1994	BS

4. EMPLOYMENT HISTORY

<u>Dates</u>	<u>Firm/Institution</u>	<u>Rank/Position</u>
5/2014 – present	Cancer Survivorship Center College of Nursing University of South Carolina Columbia, SC	Co-Director
5/2013 – present	College of Nursing and the Department Of Epidemiology & Biostatistics University of South Carolina Columbia, SC	Associate Professor (with tenure)
8/2009 – 5/2013	College of Nursing and the Department Of Epidemiology & Biostatistics University of South Carolina Columbia, SC	Assistant Professor
8/2008 – present	Cancer Prevention and Control Program University of South Carolina Columbia, SC	Associate Director
8/2004 – 8/2009	Cancer Prevention and Control Program University of South Carolina Columbia, SC	Research Assistant Professor
1/2004 – 8 /2004	Department of Epidemiology and Biostatistics Arnold School of Public Health University of South Carolina Columbia, SC	Research Associate

2003 – 2009	Cancer Prevention and Control Program Department of Epidemiology and Biostatistics University of South Carolina	Research Assistant Professor
1/2002 – 12/2003	Department of Epidemiology and Biostatistics Arnold School of Public Health University of South Carolina Columbia, SC	Clinical Studies Scientific Liaison
8/2000 – 1/2002	Department of Epidemiology and Biostatistics Arnold School of Public Health University of South Carolina	Project Coordinator
10/1999 – 9/2000	Division of Transplantation Medicine Palmetto Richland Memorial Hospital Columbia, SC	Data Manager/Senior Regulatory Specialist
7/1998 – 10/1999	Division of Transplantation Medicine Palmetto Richland Memorial Hospital Columbia, SC	Clinical Research Professional/ Regulatory Specialist
4/1998 – 7/1998	Division of Transplantation Medicine Center for Cancer Treatment and Research Palmetto Richland Memorial Hospital Columbia, SC	Clinical Research Associate
12/1996 – 5/1999	Department of Internal Medicine School of Medicine University of South Carolina Columbia, SC	Clinical Research Coordinator

5. HONORS AND AWARDS:

2015	Senior Investigator Award, College of Nursing, University of South Carolina
2015	Nominee, Mungo Graduate Teaching Award, College of Nursing
2012	Office of Research Featured Scholar; University of South Carolina, January 2012.
2011	Young Investigator Award; College of Nursing; University of South Carolina
2011	Breakthrough Rising Star; Vice President for Research and Graduate Education; University of South Carolina
2008	Gerry Sue Arnold Distinguished Alumnus/Alumna Award; Arnold School of Public Health; University of South Carolina
2008	Nominee for the Ada B. Thomas Outstanding Faculty/Staff Advisor Award
2007	Healthy South Carolina Challenge, Faith-Based Initiative Award Awarded to Dash of Faith (Role: Co-Investigator)
2004	2004 Doctoral Student Achievement Award; Arnold School of Public Health; University of South Carolina
2004	Delta Omega Public Health Honor Society Induction, Mu Chapter; Arnold School of Public Health
2003	Recipient of the Paffenbarger Physical Activity Epidemiology Award, American College of Sports Medicine

2003-2004	Fellowship Fund for Epidemiological Research on Physical Activity Research Grant; American College of Sports Medicine
2000-2003	University of South Carolina Graduate Assistant Scholarship; Included monthly stipend
1994-1996	University of Tennessee Graduate Assistant Scholarship; Included monthly stipend
1990-1994	Furman Scholar Scholarship Award; Furman University

B. TEACHING HISTORY

1. COURSES TAUGHT:

<u>Course Classroom:</u>	<u>Role in Course</u>	<u>Enrollment</u>
Nursing 898 Mentored Research	Instructor	Sum'15
Nursing 811 Nursing Research Methods II	Instructor	Spr'15: 3/ Fall'15: 5
Epidemiology 802/894 Epidemiology Methods III	Instructor	Fall'14: 11/Fall'15: 5
Epidemiology 741 Epidemiology Methods I	Co-Instructor	Spr'13: 19
Epidemiology 890 Independent Study	Instructor	Spr'12: 1/ Spr'15: 1/ Sum'15: 1/ Fall'15: 1
Application of Epidemiological and Biostatistical Principles to Data Analysis		
Nursing 769A Independent Study-Nursing Public Health Practicum Supervision	Instructor	Spr'10: 1
Nursing 840 Independent Study-Nursing Application of Epidemiological and Biostatistical Principles to Data Analysis	Instructor	Spr'11: 1
Nursing 769 Independent Study-Nursing Public Health Practice Supervision	Instructor	Spr'11: 1
Epidemiology 801 <i>Epidemiological Methods III</i>	Instructor	Spr'09: 10/ Spr'10: 9/ Spr'11: 12/ Spr'12: 20
Nursing 720 <i>Health Residency</i>	Instructor	Fall'09: 20/ Fall'10: 33/ <i>Public</i> Fall'11: 49/ Fall'12: 23/ Fall'13: 24
Epidemiology 801 <i>Epidemiological Methods III</i>	Co-Instructor	Spr'08: 12
Epidemiology 742 <i>Epidemiological Concepts of Health and Disease</i>	Instructor	Spr'06: 16

Invited Lectures

Cancer Health Disparities
For *Application of Epidemiology in Public Health*

Study Designs and Practical Considerations for Intervention Research
For *Social and Physical Environment Interventions in Health Promotion*

Physical Activity Epidemiology- Special Considerations
For *Advanced Epidemiological Methods II*

Physical Activity and Cancer
For *Cancer Epidemiology*

Breast Cancer
For *Cancer Epidemiology*

Etiologic Profiles for Hormone Receptor-Defined Breast Cancer in the Shanghai Breast Cancer Study
For *Doctoral Seminar and Exercise Science Colloquium*

Ethnicity, Diabetes, and Breast Cancer among Women of South Carolina
For *Doctoral Seminar*

Diet, Physical Activity, and Cancer
For *Neoplasia*

Breast Cancer
For *Epidemiological Concepts in Health and Disease*

Breast Cancer
For *Epidemiology Seminar*

Physical Activity and Breast Cancer
For *Seminar in the Epidemiology of Health Effects of Physical Activity*

Summer 2003

Review Sessions for Master's Progression Exam
Introductory Epidemiology and Biostatistics, Epidemiologic Methods I, and Intermediate Biostatistics

2. RESEARCH SUPERVISION:

a. Post doctoral Research Programs.

Post-Doctoral Fellows

Completed

Name	Year	Title or Topic
Lisa Wigfall, Health Services Policy and Management	2010-2011	Health Care Providers Knowledge, Attitudes, and Beliefs Around Screening for HIV in Women Receiving Mammography Services
Jessica Bellinger, Health Services Policy and Management	2010-2011	Cervical Cancer Screening and Vaccination Practices in a National Sample
Adriana Juri, Epidemiology	2008-2009	Disparities in Breast Cancer Treatment and Survival

Current

b. Doctoral Research Programs.

Dissertation Committees (PhD)

In Progress

Name	Year	Title or Topic
Nancy Gallagher (chair), Epidemiology	In Progress	Relationship Between Cancer Survivorship Program Spatial Accessibility, Utilization, and Breast Cancer Survivorship Quality of Life
Jennifer Ersek, Epidemiology	In Progress	Utilization of Molecular Testing and Overall Survival in Non-Small Cell Lung Cancer Patients: A Seer-Medicare Analysis
Jametta Magwood	In Progress	Examining Demographic and Socioeconomic Factors that Impact Rural Cancer Patients and Physicians to Manage Pain and Its Impact on Survivorship
Dayna Campbell, Health Services Policy and Management	In Progress	Mental Health and Cancer Screening

Completed

Name	Year	Title or Topic
Marsha Samson (chair)	Completed 1/2016	Oral Contraceptive Exposure And Chronic Disease Risk
Kathy Dhotre (chair), Epidemiology	Completed 5/2015	Disparities in Premature Discontinuation of Treatment in Colon Cancer Patients
Prea Thathiah (Chair) Epidemiology	Completed 5/2014	Antibiotic Usage in Relation to Resistant Bacterial Infections and Liver and Kidney Cancer Outcomes in South Carolina
Amelia M. Joseph, Nursing	12/2013	Improving the Diagnostic Accuracy of Failure to Rescue
Leepao Khang (Chair), Epidemiology	05/2013	Distance to Mammography Facility and Breast Cancer Outcomes in an Economically Disadvantaged Population
Ellen Adkins, Nursing	12/2012	Best Practice to Promote Bone Health in Women in the Primary Care Environment
Laura Szadek, Nursing	12/2012	Identification, Prevention and Treatment of Children with Decreased Bone Mineral Density
Omar Whiteside, Epidemiology	3/2012	Disparities in HIV in South Carolina
Michelle Myer, Nursing	1/2012	Using a Consensus Process to Develop an Evidence-Based Practice Guideline for School Exclusion for Head Lice (Pediculosis Capitis)
Philip Cavicchia, Epidemiology	8/2011	Type II Diabetes Mellitus and Chronic Disease
Amy Clark, Nursing	8/2010	A Best Practice Guideline for Screening and Treating Vitamin Deficiency in a Primary Care Setting: Moving Beyond the Bones
BeiBei Luo, Pharmacy	8/2010	Interactions Between Folate Deficiency and B-Nicotinamide Adenine Dinucleotide Deficiency and Conformational Study of Thymidylate Synthase and Its Physiological Relevance

c. Masters Research Programs.

Thesis Committees (MSPH & MPH)

Current

In Progress

Name	Year	Title or Topic
Amanda Thomas (Chair), Epidemiology	In Progress	Physical Activity and the Built Environment in the SISTAS Intervention Study

Completed

Name	Year	Title or Topic
Alex Fleming Delage, Epidemiology	Completed 12/2015	Sleep Disruption and Cancer in a Southeastern Veteran Population
Emily Haanschoten	Completed 8/2014	Effect of Small Area Primary Care Physician Density on Late Stage Cervical Cancer Diagnosis
Kendrea Knight, Epidemiology	12/2013	Brassica Vegetable Consumption and Urinary Estrogen Levels
Shana Neils- Bogenschneider, Epidemiology	2009	The Relationship of Exposure to Traffic-Related Air Pollution with Breast Cancer Stage and Histological Grade in South Carolina Women
Ashley Kay (Chair), Epidemiology	2008	An Investigation Into The Significance Of Clinical Risk Groups And The Presence Of Racial Disparities According To Post-Diagnosis Breast Cancer Treatment Patterns And Survival Within South Carolina's Medicaid Population
Kamala Swayampakala (Chair), Epidemiology	2008	Independent and Joint Effects of Race and Geographic Location in Primary Treatment of Prostate Cancer and PSA Outcome in South Carolina
Jessica Henry, Epidemiology	2008	Antioxidant Supplement Use and Breast Cancer Aggressiveness and Survival
Mei Li	2008	Impacts of MTHFR C677T Polymorphism on Breast Cancer in South Carolina
Emily Smith (Chair), Epidemiology	2007	Breast Cancer Survival Analysis among Economically Disadvantaged Women: The Influences of Delayed Diagnosis and Treatment on Mortality
Adriana Jurj, Epidemiology	2006	Predictors of Survival: A Comparison of Black and Non-Hispanic White Women with Invasive Breast Cancer
Tiffany Barker (Chair), Epidemiology	2005	Breast Cancer in a Screened Population of Medically Underserved South Carolina Women

d. Undergraduate Student Supervision.

Undergraduate Research Committees

Current

Completed

Name	Year	Title or Topic
Rushi Desai	2015-2016	Magellan Apprentice- Research Experience in Public Health
Katie Carpenter	2008	HPV and Oral Health

e. Other Research Supervision.

Graduate Assistants

In Progress

Name	Year	Title or Topic
Amanda Thomas	2015-present	A Geospatial Investigation Of Breast Cancer Treatment
Sarah Piperato	2014-present	Fellow; Bio-Behavioral Interface Training Program
Oluwole Babatunde	8/2014-present	Treatment Patterns for Colorectal Cancer Treatment & A Geospatial Investigation Of Breast Cancer Treatment
Marsha Sampson	2012-present	Fellow; Bio-Behavioral Interface Training Program
Seul Ki Choi	2012-present	Graduate Assistant, Epidemiology; Acquisition and Analysis of Federally Qualified Health Center Data using Geospatial Information Systems Methods
Kendrea Knight	2010-2014	Graduate Assistant, Epidemiology; Breast Cancer Prevention Through Diet and Physical Activity

Completed

Name	Year	Title or Topic
Malcolm Bevel	2013-2015	Sistas Inspiring Sistas Through Activity and Support
Leepao Khang	2009-	Graduate Assistant, Epidemiology; Acquisition and Analysis of Federally Qualified Health Center Data using Geospatial Information Systems Methods
Alexa Gallagher	2010-2011	Graduate Assistant, Epidemiology; Cervical Cancer Screening and Vaccination Practices in a Rural and Racially Diverse Sample
Shana Neils-Bogenschneider	2009	Graduate Assistant, Epidemiology; Breast Cancer Mortality and Air Pollution Exposure in South Carolina
Alex Fleming	2008-2010	Graduate Assistant, Epidemiology; Breast and Cervical Cancer Survival among a South Carolina Cohort
Leigh Tyson	2007	School Research Committee/White Knoll High School; An Introduction to Research and Public Health
Emily Smith	2005-2006	Graduate Assistant, Epidemiology; A Comparison of Interval Breast Cancers Among African American and European American Women

C. SCHOLARLY AND PROFESSIONAL PUBLICATIONS:

1. LIST OF BOOKS:

Public Health Nursing: Population-Centered Health Care in the Community, 8th Edition. Chapter 11: Epidemiology by Messias D, **Adams SA**, and RE McKeown. Edited by Marcia Stanhope.

2. LIST OF REFEREED PUBLICATIONS:

Peer Reviewed Journals (* designates student author)

Submitted/Under Review:

1. Harmon BE,* **Adams SA**, Hebert JR. Food Group Intake and Breast Cancer Risk in European and African American Women. *Submitted to Nutrition and Cancer: An International Journal*, 2015.
2. Hebert JR, Frongillo EA, Adams SA, Turner-McGrievy T, Miller DR, and IS Ockene. Perspective: Randomized Controlled Trials are not a Panacea for Diet-Related Research. *Under Review: Advances in Nutrition*, 2015.
3. Hayne PD*, **Adams SA**, and SP Heiney. Predictors of Group Climate for African American Women with Breast Cancer. *Submitted to: European Journal of Oncology*, 2015.
4. Bevel M*, **Adams SA**, Heiney SP, Brandt HM, Wirth MD, Hurley TG, Khan S, Johnson H, Wineglass CM, Warren-Jones TY, Murphy EA, and JR Hebert. The Sistas Inspiring Sistas Through Activity and Support (SISTAS) Research Study: Promoting Physical Activity and Healthy Diet among African-American Women in South Carolina (2011-2016). *Submitted to: Journal of Community Health*, 2015.
5. GIS Guest Special Edition Group (Eberth JM, editor; **Adams**, Kirby, Lawson, Liese, Mobley, Pruitt, and Probst). GIS and Spatial Methods in Epidemiology. *Accepted for journal symposium: Annals of Epidemiology*, 2016. (Original research articles to be submitted for peer review March 2016).
6. Babatunde OA*, **Adams SA**, Orekoya O, Basen-Engquist K, and SE Steck. Effect of physical activity on quality of life as perceived by endometrial cancer survivors: A systematic review. *Submitted to: International Journal of Gynecologic Cancer*, 2015.

In Press/Published:

Most current listing of publications can also be found online at:

https://scholar.google.com/citations?hl=en&user=dvYcgH0AAAJ&view_op=list_works&sortBy=pubdate H-index=15, # of citations= 1068 (10/12/2015)

7. Dhotre KB*, **Adams SA**, Hebert JR, Bottai M, and SP Heiney. Oncology Nurses' Experiences with Patients Who Choose to Discontinue Cancer Chemotherapy. *In Press, Oncology Nurses Forum*, 2016.
8. Babatunde OA*, **Adams SA**, Eberth JM, Wirth MD, Choi SK, and JR Hebert. Racial Disparities in Endometrial Cancer Mortality-to-Incidence Ratios among Blacks and Whites in South Carolina. *In Press, Cancer Causes and Control*, 2016.
9. Samson ME*, **Adams SA**, . Understanding the Association of Type 2 Diabetes Mellitus in Breast Cancer among African-American and European-American populations in South Carolina. *In Press, Southern Medical Journal*, 2016.
10. Samson M*, Porter N*, Orekoya O*, Hebert JR, **Adams SA**, Bennett CL, and SE Steck. Progesterin and breast cancer risk: a systematic review. *Breast Cancer Research and Treatment* **155**(1): 3-12, 2016.
11. Samson ME*, Porter NG*, Hurley DM, **Adams SA**, and JM Eberth. Disparities in Breast Cancer Incidence, Mortality, and Quality of Care among African American and European American Women in South Carolina. *Southern Medical Journal* **109**(1): 24-30, 2016.

12. Choi SK*, **Adams SA**, Eberth JM, Brandt HM, Friedman DB, Tucker-Seeley R, Yip MP, and JR Hebert. Medicaid coverage expansion and implications for cancer disparities. *American Journal of Public Health* 105(S5): S706-S712. [e-View Ahead of Print. doi: 10.2105/AJPH.2015.302876]
13. Khan-Gates J*, Ersek JL*, Eberth JM, **Adams SA**, and S Pruitt. Geographic access to mammography and its relationship to breast cancer screening and stage at diagnosis: a systematic review. *Women's Health Issues*, 25 (5), 482-493, 2015.
14. **Adams SA**, Choi SK*, Khang L*, Campbell D, Friedman D, Eberth J, Glasgow R, Tucker-Seeley R, Yip MP, Young V, and Hebert JR. Is Availability of Mammography Services at Federally Qualified Health Centers Associated with Breast Cancer Mortality-to-Incidence Ratios? An Ecological Analysis? *Journal of Women's Health, In Press*, 2015. [e-pub ahead of print: <http://online.liebertpub.com/doi/abs/10.1089/jwh.2014.5114>]

Funded Grants

MOLECULAR DIAGNOSTIC TESTING IN NON-SMALL CELL LUNG CANCER

Source: Office of Research-University of South Carolina
Period: 3/01/2015- 2/29/2016
Role: Mentor (PI: Ersek)
Amount: \$ 4,958
Score: Awarded

A GEOSPATIAL INVESTIGATION OF BREAST CANCER TREATMENT (1 R15 CA179355-01A1)

Start date: 9/2014
End date: 9/2016
Source: NIH/NCI
Role: PI
Amount: \$425,800
Status: Awarded

SIP-09-002 SOUTH CAROLINA CANCER PREVENTION AND CONTROL RESEARCH NETWORK-II (SCCPCRN-II)

Start date 09/2014
End date 09/2019
Source: CDC/NCI
Total Project Amt. Requested (All Years) \$1,500,000.00
Co-I (10%)

PCOR WHEN CANCER IS IDENTIFIED AFTER TRAUMA: WHAT ARE THE OUTCOMES?

Source: Heath Sciences South Carolina
Period: 07/01/2014- 06/30/2015
Role: Co-Investigator (in kind)
Amount: \$ 10,000.00
Score: Awarded

GEOGRAPHIC DISPARITIES IN ACCESS TO POST-ACUTE HEALTH CARE SERVICES AFTER INJURY

Source: SC Research Foundation
Period: 05/16/2014- 09/15/2015
Role: Co-Investigator (in kind)
Amount: \$ 15,000.00
Score: Awarded

APPLICATION FOR ASPIRE-II: PREPARING FOR A PROGRAM PROJECT GRANT IN DIET, PHYSICAL ACTIVITY, AND ENERGY BALANCE TO ADDRESS LARGE RACIAL DISPARITIES IN COLON CANCER PREVENTION AND CONTROL

Start date 05/01/2012
End date 04/30/2013
Total Project Amt. Requested (All Years) \$ 99,586
Co-Investigator (in kind)
Status: Awarded

SOUTH CAROLINA CANCER DISPARITIES COMMUNITY NETWORK – II

Start date 07/01/2010
End date 06/30/2015
Total Project Amt. Requested (All Years) \$4,778,222.00
Program Leader (30%)
Status: Awarded

SCDCN-II's overarching goal is to contribute materially to: understanding the underlying causes of cancer-related health disparities; discovering and developing effective innovations to lower incidence, improve survival, and reduce suffering; delivering these innovations to high-risk populations; and, finally, moving them to widespread dissemination. We focus on African Americans (AAs) in South Carolina, a group in a

region with much higher-than-average cancer incidence¹⁻⁸ and extraordinarily high mortality given incidence.

SIP-09-002 SOUTH CAROLINA CANCER PREVENTION AND CONTROL RESEARCH NETWORK (SCPCRN)

Start date 09/30/2009
End date 09/29/2014
Source: CDC/NCI
Total Project Amt. Requested (All Years) \$1,496,341.00
Co-PI (15%)
Status: Awarded

Drawing on the experience of University of South Carolina-based faculty and staff committed to community-based participatory research and the community partner of the South Carolina Primary Health Care Association, the South Carolina Cancer Prevention and Control Research Network intends to rejoin CDC's Cancer Prevention and Control Research Network (CPCRN). In this work we will combine the special insights and expertise in providing training and technical assistance to the Federally Qualified Community Health Centers to ensure the provision of quality comprehensive preventive and primary care services for cancer in SC and the willingness to collaborate of the South Carolina Primary Health Care Association with our well recognized expertise in intervention and assessment of physical activity and diet in the context of community-based participatory research. We see involvement in the CPCRN as an extraordinary opportunity to share our expertise and insights with the national group, including through our proposed project on farmers' markets as a way to effect changes in diet and physical activity that communities can and will want to adapt to their own special needs.

RACIAL AND RURAL DIFFERENCES IN CERVICAL CANCER SCREENING PRACTICES (RURAL HEALTH RESEARCH GRANT PROGRAM COOPERATIVE AGREEMENT)

Start date: 9/30/2009
End date: 9/19/2010
Total Project Amt: \$202,480.41
Source: Health Resources & Services Administration (HRSA)/HHS
PI (25%)
Status: Awarded

The purpose of this investigation is to describe and compare racial and rural differences in cervical cancer screening practices using data from the National Ambulatory Medical Care Survey. We will use data from the National Ambulatory Medical Care Survey (NAMCS) to conduct a cross-sectional study of screening and vaccination practices.

Community Navigation for Colorectal Cancer Prevention and Control

Source: Duke Endowment Foundation
Period: 9/2008 – 8/2011
Role: Co-Investigator
Amount: \$582,122

The goal and specific aim of this service program is to reach individuals aged 50 and older for whom CRC screening, is recommended, and provide assistance with obtaining CRC screening in Richland and Lexington Counties.

A Feasibility Study of a South Carolina State Mammography Registry

Source: South Carolina Cancer Alliance
Period: 7/2008 – 6/2009
Role: Principal Investigator (10%)
Amount: \$ 13,500

The specific goals and aims of the project will be: To explore the feasibility of establishing a mammography registry; to determine the best means by which to establish a registry; assess the usefulness of the collected data; assess the financial resources required to establish and maintain such a registry state-wide.

Diet & Activity Community Trial: High-Risk Colon Polyps

Source: National Institute of Health
Period: 6/2008 – 5/2013
Role: Co-Investigator
Amount: \$2,829,570

The overall goal of this project is to reduce colon cancer-related health disparities, by conducting (specific aims): 1) a faith-based community-designed, screening to identify individuals having colon polyps; 2) a case-control study designed collaboratively by the faith-based community and USC scientists to identify factors associated with the presence of polyps; and 3) a study to test the effectiveness of a community-designed, family-based dietary and physical activity intervention aimed at modifying levels of inflammatory markers associated with colon cancer risk.

A Pilot Investigation of Ethnic Disparities in Patient-Initiated Premature Treatment Discontinuation among Colon Cancer Patients

Source: National Cancer Institute/ National Institutes of Health
Period: 4/2007-3/2009
Role: Principal Investigator
Amount: \$144,000

With this investigation, we seek to explore ethnicity-stratified rates and determinants of patient-initiated premature discontinuation of chemotherapeutic treatment among colon cancer patients.

Experiential Education to Change Nutrition Practices in a Faith-Based Community

Source: South Carolina Cancer Disparities Community Network
Period: 7/15/06-7/14/07
Role: Co-Investigator
Amount: \$20,577

With this proposal, we aim to utilize a community-based, participatory research approach to assist a church congregation in changing dietary behaviors through a series of experiential cooking classes.

A Pilot and Feasibility Study of Ethnic Differences In Interval Diagnosed Breast Cancers In South Carolina

Source: South Carolina Cancer Center
Period: 4/1/06-9/30/07
Role: Principal Investigator
Amount: \$23,690

The goal of this investigation is to conduct a pilot study to describe and compare detection patterns of breast cancers and their related histopathology among AA and EA women in South Carolina.

South Carolina Cancer Disparities Community Network

Source: National Cancer Institute/ National Institutes of Health
Period: 5/2005-4/2010
Role: Co-Investigator
Amount: \$2,496,672

The overall goal of the South Carolina Cancer Disparities Community Network (SCCDCN) is to develop capacity to support community-based participatory education, research, and training to reduce cancer health disparities; to implement community-based, participatory research, education, and training programs in order to reduce cancer health disparities; and to institutionalize, expand, and disseminate SCCDCN activities that reduce cancer health disparities.

Co-Occurrence of Diabetes and Breast Cancer Among Women by Ethnicity

Source: Department of Defense Breast Cancer Research Program
Period: 7/16/04 – 7/15/05
Role: Principal Investigator
Amount: \$90,834

The specific aims for this study are as follows: 1.) To compare the co-occurrence of DM and breast cancer between EA and AA women receiving Medicaid benefits and 2.) To determine and compare the relative risk of developing breast cancer among EA and AA individuals with and without DM.

Nutritional Status, DNA Damage, and Tumor Pathology

Source: Department of Defense Breast Cancer Research Program
Period: 7/16/04 – 7/15/05
Role: Co-Principal Investigator
Amount: \$109,125

The specific aims of the research are 1) to analyze the status of niacin and folic acid/vitamin B12 and the extent of DNA damage in circulating blood cells of AA and EA patients with breast tumors and 2) to analyze the association between these variables and clinical pathology of the resected tumor.

Ethnicity, Follow-up, and Breast Cancer Outcomes among Economically Disadvantaged Women

Source: University of South Carolina: Research and Productive Scholarship
Period: 4/1/04 – 6/30/2006
Role: Principal Investigator
Amount: \$17,000

The goal of the investigation is to examine the relationship between race, follow-up of suspicious mammographic findings, and cancer outcomes among women participating in South Carolina's Breast and Cervical Cancer Early Detection Program, a program which provides breast and cervical screening for economically disadvantaged women.

Physical Activity and Hormone Receptor-Defined Breast Cancer

Source: American College of Sports Medicine
Period: 7/1/03- 12/31/04
Role: Principal Investigator
Amount: 10,000

The primary aims of this investigation are to 1.) Examine the relationship of physical activity in year prior to diagnosis with receptor positive breast cancer and 2.) Examine the relationship of physical activity during specific life periods (12 to 19, 20 to 34, 35 to 49, and 50 to 65 years) with receptor positive breast cancer.

A Geospatial Investigation of Breast Cancer Health Disparities (R01)

Source: National Cancer Institute/ National Institutes of Health
Period: 10/2011 – 9/2014
Role: Principal Investigator
Amount: \$1,235,213
Score: 54 (49%)-Not Awarded

Despite a decreased likelihood of being diagnosed with breast cancer, African American women are more likely die from breast cancer than their European American counterparts. A limited amount of previous research suggests that this disparity may be explained in part by the distance women live from mammography screening or breast cancer treatment facilities and are required to travel to obtain these critical services. Considering this, we plan to examine the impact of distance to mammography and treatment facilities on BrCA staging and mortality disparities in managed care populations in South Carolina.

Targeting inflammatory and metabolic processes in obese breast cancer survivors

Source: National Cancer Institute/ National Institutes of Health
Period: 10/2011 – 9/2014
Role: Co-Principal Investigator (with Multiple PI plan)
Amount: \$1,266,879
Score: 49 (48%)-Not Awarded

The primary goal of this investigation is to conduct a dietary intervention using the flavonoid quercetin to target inflammatory and metabolic processes in obese breast cancer survivors. This will be done using a randomized, double blind, placebo controlled design where we will conduct a 12-wk intervention with a supplemental dose (1g/day) of quercetin in obese breast cancer survivors. Because it is necessary to consider physical activity in studies that involve energy balance and because quercetin has documented effects on increasing physical activity, we will also examine the effects of quercetin on physical activity.

SIP 11-043: A Feasibility Study of Data Linkage Between South Carolina's Best Chance Network, Central Cancer Registry, and Medicare

Source: Centers for Disease Control & Prevention

Period: 9/2011 – 8/2013
Role: Principal Investigator
Amount: \$ 479,904
Score: 39-Not Awarded

African American women are more likely die from breast cancer than their European American counterparts, a disparity that is strikingly higher in South Carolina than in the United States as a whole. Access to and utilization of mammography screening may be an important part of the explanation for this disparity. We propose to examine screening practices and patterns through the linkage of three different data sources available in the state of South Carolina: South Carolina's National Breast and Cervical Cancer Early Detection Program, the South Carolina Central Cancer Registry, and Medicare. Such a linkage has not been attempted before in the study of cancer health disparities research and will result in a rich and robust resource.

ACCEPTABILITY OF GETTING AN HIV TEST AT MAMMOGRAPHY VISIT

Start date 09/01/2010
End date 08/31/2011
Total Project Amt. Requested \$ 49,891.00
Principal Investigator (10%)
Status: Not Awarded

Although rates of cervical cancer screening and mammography approaching national goals (90% and 70% respectively), HIV testing rates among women 40+ years old are suboptimal. We expect that midlife/older women who are utilizing women's preventive health services such as breast and cervical cancer screening are likely to be receptive if offered the opportunity for an HIV test. We will identify patient, provider, and health systems factors that may promote uptake of HIV testing in primary care settings.

BREAST CANCER SUMMIT MEETING IN SOUTH CAROLINA

Start date 03/01/2010
End date 02/28/2011
Total Project Amt. Requested (All Years) \$50,000.00
PI (15%)
Status: Scored 305 (Not Awarded)

In response to the public health challenge posed by breast cancer and disparities experienced by minority groups, we propose to plan and implement a Breast Cancer Summit (BCS) Conference aimed to draw all the key stakeholders in breast cancer in South Carolina as participants. The purpose of this BCS conference will be to discuss relevant research, patient care, and policies which impact breast cancer. The ultimate goal of the conference will be to publish specific and evaluable goals aimed at alleviating the burden of breast cancer and breast cancer disparities in South Carolina.

AN ANTI-INFLAMMATORY DIETARY INTERVENTION TO ADDRESS RACIAL DISPARITIES IN COLON CANCER

Start date 01/01/2010
End date 12/31/2013
Total Project Amt. Requested (All Years) \$2,394,535.00
Source: NCI/NIH
Co-Inv: 5%
Status: Not Awarded

We propose to conduct a dietary intervention trial among African Americans with a previous adenomatous polyp to examine the interactive effect of diet and genotype on inflammatory markers in this high-risk population. We will capitalize on an NIH-funded ongoing colon cancer study in South Carolina for efficient recruitment of participants, ongoing colonoscopies to determine polyp status, and provision of core resources. Based on study results, we will be able to determine whether diet and genotype interact to alter biological markers of inflammation among an underserved population at high risk for colon cancer.

THE RELATIONSHIP BETWEEN BREAST CANCER AND AIR POLLUTION IN SOUTH CAROLINA

Start date 12/01/2009
End date 11/30/2011
Total Project Amt. Requested (All Years) \$144,000.00
Source: NCEHS (NIH)
Co-PI: 15%
Status: Not Awarded

The impact of breast cancer on the US is significant, and a very limited but promising body of research has examined the relationship of breast cancer with air pollution exposures. We propose a time and cost efficient population-based preliminary study to examine the relationship of breast cancer disease occurrence and deaths with air pollution exposures in South Carolina.

CHALLENGE GRANT: VIRTUAL COHORT: USING EXISTING RESOURCES TO PINPOINT & REVERSE CANCER DISPARITIES

Start date 10/01/2009
End date 09/30/2011
Total Project Amt. Requested (All Years) \$993,264.00
Co-PI: 15%, 33%
Status: Not Awarded

The overarching goal of the proposal is to establish the capacity and infrastructure needed to support region-specific research programs in cancer health disparities across a wide range of topics that constitute cancer prevention and control. The purpose of this proposal is to connect findings from existing data sources to academic and community points of interest, concern and, ultimately, effective action in order to address racial disparities in cancer. This will result in establishing a truly population-based cohort that uniquely represents communities (especially the African American population) at high risk of cancer, other chronic diseases, and exposure to a host of environmental factors.

CHALLENGE GRANT: THE BUILT ENVIRONMENT AND RACIAL DISPARITIES IN COLON AND PROSTATE CANCERS

Start date 10/01/2009
End date 09/30/2011
Total Project Amt. Requested (All Years) \$839,533.00
Co-Inv (10%)
Status: Not Awarded

The more widespread availability of Geographic Information Systems (GIS) technology has provided public health researchers with new tools and methodologies to examine health disparities. Utilizing state-wide geocoded cancer data from the gold-rated South Carolina Central Cancer Registry, the research team will explore the relationship of racial disparities in colon cancer and prostate cancer outcomes to environmental exposures related to the built environment (i.e., nutrition and physical activity environment). With the large representation of African Americans in South Carolina, the proposed research has tremendous potential to provide invaluable insights into a chronically under-served population carrying an unequal burden of disease.

CHALLENGE GRANT: TRAINING A DIVERSE WORKFORCE IN THE EMERGING FIELD OF CANCER GENOMICS AND EPIDEMIOLOGY

PI: David Reisman
Start date 09/30/2009
End date 08/31/2011
Total Project Amt. Requested (All Years) \$818,023.00
Effort: 10%
Status: Not Awarded

This project aims to develop a novel interdisciplinary PhD training opportunity that specifically is geared towards training minority graduate students in a manner that combines molecular biology and genomics of cancer with cancer epidemiology. Through the training of researchers who could understand epidemiology and public health and use high-end genomics and proteomics and other high throughput technologies, for example, we will be able to ask new questions and approach important problems in new ways. Furthermore, by promoting both minority driven science we will help ensure the development of stronger national cancer programs to reduce and ultimately eliminate many of the current the cancer health disparities.

LATINA INITIATIVE FOR BREAST AND CERVICAL CANCER PREVENTION AND CONTROL

Start date 09/01/2009
End date 08/31/2012
Total Project Amt. Requested (All Years) \$1,341,781.00
Co-Inv (10%)
Status: Not Awarded

Cancer is an important issue among Hispanics, the fastest growing minority population in the US. This translation research proposal will address the disparities in breast and cervical cancer screening practices among Hispanics. By improving Latinas' access to and appropriate utilization of breast and cervical cancer screening services, the project aims to reduce disparities in breast and cervical cancer mortality rates among Hispanic women.

ROP: A QUALLITATIVE STUDY OF POST-TREATMENT CARE DISPARITIES AMONG AFRICAN AMERICAN COLORECTAL CANCER SURVIVORS

Start date 05/01/2009

End date 07/31/2010

Co-Inv (5%)

Status: Not Awarded

The overarching goal of this application is foster a partnership with the African American (AA) colorectal cancer (CRC) survivorship community to identify ways to decrease disparities in the receipt of post-treatment survivor care services and colonoscopy screening.

South Carolina's Center for Cancer Research Excellence (P20)

Source: National Center for Research Resources/ National Institutes of Health

Period: 1/2008 – 12/2013

Role: Project Leader

Amount: \$2,148,467.00

Score: 27 -Unfunded

South Carolina's Center for Cancer Research Excellence is committed to training and supporting promising junior faculty in the effort to broaden and deepen our understanding of the underlying causes of breast and other cancers. Project 2 (Adams, PI) will explore inflammatory and obesity marker responses to a diet and physical activity intervention in a racially diverse group of breast cancer patients.
